

NOTIFICATION 02/05/20

Due to the coronavirus pandemic, the clinic has taken all the necessary measures to ensure maximum safety and protection for all patients.

Attendance is by appointment only, without an escort. Only one escort is allowed in case of minors or when it cannot be done otherwise.

It is compulsory to wear a protective mask while entering our clinic. A reasonable pause (at least half an hour) is inserted between the patients' entry in the doctor's surgery, in order to disinfect and renew the air inside.

Finally, the appointment is postponed for at least 14 days in cases of flu-like symptoms or fever during the temperature taken prior to the patient's entry into the doctor's surgery.

Thank you for your understanding and we wish you a speedy return to our daily routine, as we knew it.
